It is available in a software subscription (desktop and mobile) or per-user/month (desktop only) version. The company also produces AutoCAD 360, AutoCAD Civil 3D and AutoCAD Map 3D. AutoCAD 360, AutoCAD Civil 3D, and AutoCAD Map 3D are also desktop apps for Microsoft Windows that run on the same graphical system used to run AutoCAD. These apps have been renamed AutoCAD Architect, AutoCAD Civil 3D Architect and AutoCAD Map 3D Architect respectively. This list is organized by release year. Updates are listed by year, then by month. Note: the dates used are the dates of the first public release of each version. For updates after a version has been discontinued, the links go to the home page of the AutoCAD forums, where the developer provides info about the new releases. AutoCAD,

AutoCAD LT, AutoCAD Architecture, AutoCAD Civil 3D, and AutoCAD Map 3D are subscription products sold by Autodesk. AutoCAD and AutoCAD LT are available only on Microsoft Windows, and AutoCAD Architecture, AutoCAD Civil 3D, and AutoCAD Map 3D are available only on Microsoft Windows, Mac OS X, and Android. Autodesk will continue to develop AutoCAD LT, AutoCAD Civil 3D, and AutoCAD Map 3D as part of the subscription version, but will not provide support for them. AutoCAD Crack+ Keygen Full Version

**Technical requirements** The software and the integrated hardware are based on the .NET framework. AutoCAD XE can only be installed on Windows 7 and higher operating systems. AutoCAD can also run on Microsoft Windows 2000 and Windows XP. In this case, it must be configured with the "Full" installation (no automatic updates and no support). AutoCAD 2008 was made available for Windows 2000 as well. AutoCAD XE is available in both 32-bit and 64-bit builds. AutoCAD 2013 and later versions support 32-bit only. AutoCAD 2010 was only available as a 64-bit release. AutoCAD 2011 and later releases can be run either 32-bit or 64-bit. The software requires a minimum of 2GB of memory for startup (see comments section

below). AutoCAD XE is available as an annual subscription or a perpetual license. Applications

AutoCAD AutoCAD software is the core product of AutoCAD Inc. and is used to create technical drawings of mechanical, electrical, plumbing, and architecture projects. It is designed

to help the user conceptualize a design, generate and edit documents, prepare and output technical drawings, and produce 2D and 3D images. The AutoCAD 2009 feature set is roughly equivalent to AutoCAD 2008 and later releases. The AutoCAD 2010 and later releases have a large number of new features and functions and some new rendering capabilities. AutoCAD LT

AutoCAD LT is intended as a small, simple alternative to the professional AutoCAD software. It can produce 2D technical drawings and rudimentary 3D modeling and animation. It does not

have all the features of AutoCAD and most users need only the basics. It is also freeware, available as a perpetual license. LiveCAD AutoCAD LT is the basis for the LiveCAD product,

which is also freeware. LiveCAD is a visual programming environment for the creation of 2D/3D user interfaces (UIs) for CAD applications. UIs are sets of user-interface elements such as buttons, charts, tables, etc. that interact with the underlying CAD application in a visual

manner. LiveCAD works with any AutoCAD-compatible software, not just AutoCAD. LiveCAD can be used to create and edit icons, logos, and any other graphics and elements used to create a user interface. LiveC a1d647c40b

Young Arrested After Posing As Teen In Sex Scam The Richmond Police Department says two young men, one 14-years-old, the other 16-years-old, have been arrested after investigators say they posed as teens in a national sex scam. Investigators say on Saturday, officers responded to 5100 block of Woods Road in Henrico County to investigate a report of a suspicious person. When officers arrived, they say the victim told them that two young men posing as teenagers were asking about jobs. "They both showed the victim a fake identification that showed that they were both 16-years-old," says Officer Richard Graf, with the Richmond Police Department. "She complied with the request and the young men took her cash." Graf says when the victim called the police, she told them she gave the young men her money and they went into a nearby house. "A short time later, the two young men returned to the area and were taken into custody," says Graf. Graf says in a separate case, the two men were charged with forgery. He says due to this case, the Richmond Police Department is offering a helpful tip. "Anytime that somebody comes to your door posing as a young adult, you should not give out personal information or you risk being victimized," says Graf. The young men will appear in court later this week. A spokesperson for the Henrico County Police Department tells our news partners at WRIC that the department also arrested two people on Saturday. They say one of the suspects is a 14-year-old boy and the other suspect is a 16-year-old boy. The teenager was arrested for felony obstruction of justice and the boy was arrested for felony assault and battery on a police officer. Don't, for the love of God, say that about Pizza Hut.
