Explore various options MB Free Astrology Dictionary is an alphabetical listing of all words related to Western as well as Vedic Astrology, an in depth explanation for the terms is given wherever possible along with the definition. Colorful and complicated user interface The application doesn't take long to install and it doesn't come with a complicated setup that you would need to complete before you can actually use it. Still, the graphical interface is quite complicated and tiresome with many tools and buttons. It would have been nice if it came with a more simple and efficient layout that makes it easy to access various sections. More features and tools The software solution comes with lots of information on astrology and certain terms. Still, it would have been nice if it had some more features and tools at hand. MB Free Astrology Dictionary lacks a section for saving information on your computer or even printing it to make it available on a hard copy. It could also use the option to bookmark or to set quick links to information that appeals to you the most. All in all, MB Free Astrology Dictionary is a nice application for searching for all words related to Western as well as Vedic Astrology, but it needs some more work.
