century American male musiciansIn traditional cell based processing, a cell first is grown to a desired size. The cell is then typically divided into several smaller cells, a process known as cell splitting. The cell splitting process creates a layer of substantially uniform cell size cells. Some cells are grown for a limited period of time and are then cut into multiple small pieces, a process known as cell cloning. Cell cloning can be performed in a number of different ways, such as the use of micropipets and numerous 55cdc1ed1c
