========== In this sample, one can access to the python keyboard shortcuts directly from a windows r... Like a lot of people, I love Python, and I wanted to try it for Windows. However, Python seems to be a bit unstable for Windows. The docs and tutorials out there make it seem like every third Python program has problems with every new version of Windows, and have to be fixed before you can actually use the program. With that in mind, I created this tool: .NET 4.0 Unmanaged Native Python Wrapper (LINUX/BSD) It...
