Q: NodaTime: how do I set the start/end date of an aggregated series? I have a derived aggregate series like: `var series = _aggregator.AddRange(new[] { one, two, three });` Is there any way to set the start and end dates of the series,

---

or should I create an IGrouping? I know I can use the last item in the list for the first, but the last one in the list may not be the final one. A: I use this for debugging and test purposes:

```
var dates = new List {  
    DateTime.Now,  
    DateTime.Now.AddHours(1),  
    DateTime.Now.AddDays(1),  
    DateTime.Now.AddMonths(
