The game is designed for VR, which means that the interface itself will change. We have adopted a new UI in AEGIS OF LANDLORD, which is designed to put you in virtual reality and allows you to experience things intuitively and comfortably. It also allows us to incorporate your progress from the past. In addition to a change in interface, we will also make the game experience smoother and the graphics sharper than previously possible, with improved weather and lighting effects, and the opening and closing of the door. ====== Nicholas_C I just bought this in the Steam store.
