- Character item Effects You will start with 9 items for your character and they will all have different effects. You can acquire more items by defeating enemies, completing quests, or unlocking special items. The items are also limited, so it will be necessary to search for the effects on the various maps and to buy some of the equipments in order to acquire

them. Characters Elven Appearance: Short hair, blue eyes, green skin Class: Warrior Movement: Jump, Dash, Dodge Strength: In-battle Speed: In-battle Magic: In-battle Special Skills: Cat ※ In battle, your cat can use its teeth and claws to greatly increase your attack power. What's new:

PSN game Hellsgate: Resurrection will be released worldwide on the PlayStation Store on December 22, 2011!

※ A message appeared in-game when you joined the server. We apologize for this and would like to apologize to those who were looking forward to accessing the game.

For more information on the game, visit >

Hellsgate: Resurrection comes with SRPG elements such as high speed battle and dialogues. It is also packed with an exciting story told in fragments.

When you battle a monster in the game, a chain reaction of monster attacks will take place. Every monster you defeat will be replaced by another, making this a constant game of monkey-see, monkey-do.

You will travel the Lands Between, allowing you to choose to face the hordes of monsters with a strong character and use an arsenal of weapons for attacks, when you are an amnesiac who just awakened from a nightmare.

With regard to gameplay, there are a variety of dungeons and quests to undertake, with a sophisticated story which intertwines the story of the past, with the story of the present, and the story of the future. Additionally, the game includes a diverse and rich life support system thanks to the incorporation of beautiful scenery.

Furthermore, it is possible to hunt monsters, trade items with other characters, have a conversation with your trading partner, set up a partnership, or they will journey toward the common goal of your “dream.”

With other players, you can make them feel like they are right beside you.

Depending on the gameplay scenario, the development team has worked to ensure the fear evoked by mysterious circumstances appears in the characters and their actions. With these elements in mind, the battle and quest system

Q: remove the = if there is a semicolon in the middle of the string in Javascript I have such string and I would like to remove the = if there is a semicolon in the middle of the string. {=60.0; } {=27.0; } {=27.0; 30.0; } I have tried to use Regex: '{=.*;}' But it doesn't work as I expected. Is there any more simple and straight forward ways to check the string with special characters and remove the =? Thanks in advance!
A: Simply: var newstr = str.replace(/;/g, "");
Explanation: The multi line (multi-line regexp) equivalent is /;(.*)/ which is not much readable (and I cannot even see what it would do), so I assume you actually want /[;]/g if (data.props.style && data.props.style.height!=="auto" && data.props.style.height!=="0") { data.inner.style.height = data.props.style.height + "px"; } }; function resize () { if (docked) { // docked
