For example, you need to cut paragraphs off into separate text objects. You can also add annotations or get comments to specify what is missing. A paragraph break could be generated using

- **FIFA "eSport"-inspired "Deep Learning" AI routines are more flexible and intelligent than ever. They've taken new cues from the hundreds of challenges we've seen over the past few years - they can now react more accurately in the attacking and defensive third, making it more challenging and fun than ever.**
- **Unique game moments that happen to your team. Play a match with two teams, and your team will see moments from the other match. Play a match and have a coin toss that decides the order of the game.**

- **In addition to classic licensed competitions and leagues, FIFA now offers an array of specially-designed competitions. These aren't just tailored to your favorite leagues, but also include a range of themes that capture the spirit of other sports or cultures.**
- **And now your FIFA Ultimate Team can feature your favorite players from around the world. Are you a Real Madrid fan? Earn glory as a Spanish midfielder, and climb to the summit with an array of Spanish talent.**
