FIFA is the best-selling football game of all time, with more than 60 million players worldwide. In FIFA, you'll become the next great football star, rise through your club's ranks and make your mark on the world stage. The FIFA franchise will never be the same, as its gameplay and features have been constantly refined for the past 20 years. And FIFA 22 represents the biggest leap forward yet. Gameplay represents one of the greatest innovations ever in the FIFA series, as players are now able to physically complete all the moves on the pitch, including the hardest throws and dives, and steer the ball as if it were an extension of their body. From sprints, to the perfect pass, to twisting and turning, make every touch feel even more realistic. The game's physics engine now tracks individual body parts with an unprecedented level of detail, so players are able to predict the impact of specific passes, make quick turns, and score from every angle. The ball now behaves naturally on the pitch, while the system of Player Impact and Player Protections return, with a multitude of different scenarios now possible. The sheer breadth of actions on the pitch has been improved as well, with more than 50 new movements and 20 new animations implemented. New animations, with higher frame-rate, reduced simulation time, and more fluid gameplay, have been developed for all players. Adding to this, over 1,100 new 3D headshots, hundreds of new goal celebrations, and dozens of new celebrations have been added. New stadium architecture, as well as the likes of the Water Tower at Rio de Janeiro's Maracana and Euro 2020 final venues, give the game even more authenticity. New features Multiplayer has been expanded further with the addition of an Online Seasons mode. As you play through the campaign, you'll unlock Online Seasons. Every mode will then play out on the pitch, even on a friend's FIFA, and you can play those games alongside your friends in Online Seasons. While you're playing Online Seasons, you can join a friend's created Online Seasons or create one yourself. You can also earn points on the pitch, win finesse rewards and more. With Season mode, you'll be able to jump into five completely new modes, including Blitz, where up to four players play together as bc9d6d6daa
