More than 300 million people enjoy FIFA on consoles, on tablets and on mobile devices every year. FIFA has changed the way sports are played, experienced, and enjoyed all over the world. And the success is continuing. Now it's your turn to take control of your favorite teams and bring the FIFA experience to a new level. FIFA is back! FIFA 22 is

powered by Football™, and brings gameplay innovations, deep social integration, and a new season of innovation across every mode. Whether you like to get physical and tackle your opponents, utilize the atmosphere to your advantage, hone your skills in the training room, or master crucial skills through competition and tournaments, FIFA 22 is the perfect choice for the upcoming season of football. **Key Features** Every game - played on the pitch, on the training ground, and in competition - is based on authentic team and player behaviors. Players will use both feet, will intercept the ball, and will score and create goals in different ways than before. **True Player Movements** Movement was a fundamental feature of FIFA video games up until FIFA 17, which introduced intelligent dribbling with no square root. FIFA 22 introduces intelligent movement that closely mimics how athletes move naturally on the pitch. **Player Drives** Players will use both feet, both hands and arms to try and outwit and outmuscle defenders, pass and shoot the ball in all directions, and they'll also set up for a through ball. We've worked closely with professional footballers to recreate the physicality and the speed of real players on the pitch. **New Training System** New from FIFA 19, the training system tracks where players need to improve, and will progress you and your team based on what you do on the pitch and in the training room. **New Online Competition** Social is as much a part of playing football as the pitch. The online suite of FIFA delivers features to help you and your friends get the most out of the game, through online multiplayer and custom content creation. **The Route to Victory** In FIFA 22, teams will progress through 4 different league scenarios based on Club, Elite, Professional, or International level.
