What's new in Elden Ring:

• **Your Greeting from Staff** Based on these fundamental features, we would like to introduce our original fantasy RPG **A Touch of Evil** which developed through close cooperation between us and the legendary Japanese production house TOSE. When crafting the setting we felt the mix between WESTERN style and Japanese folk such as SCUFFLE HAT or SEKIGAHARA'S NAMAMONO. We wanted to express the power of ancient monsters while ultimately trying to capture the aesthetics of today's youth who would love a fantasy that could give them a sense of adventure. In an effort to further challenge our target audience, we intended to develop a game of the highest quality. We hope you enjoy it as well...We appreciate your support! P.S. If you wish to purchase additional goods, we will of course take this into consideration.
