But when I remove the member variables and try to run the destructor of the class it takes very long to run. What does that mean and how can I solve this issue? A: The default constructor and destructor of a class are both "empty" - they don't do anything. If you change your class to a class with non-empty constructors and destructors, that problem will go away. It's more likely that the problem is caused by something else - more detail would be required to determine what that is. Ski-Guru's Latest "Now" by Wendy Robinett, Staff Writer - May 11, 2003 Click here for the full version (pdf) of this clip. The Highlight: Ski guru, Jonny Moseley, and his team brought along a few new passengers for their week-long Epava ski and snowboard tour, which landed in Squaw Valley, California this weekend. The father and son team of experts hit some of the most exotic locales in the world, each hoping to uncover great new pistes under the radar. The tour is billed as a "whisper-and-steal" skiing and riding expedition, and the snow was nearly perfect - even if it wasn't in many of the spots where they were looking.The
