Directing your digital art To direct how an image is drawn, you can make a _directing layer,_ which you can use to create a drawing or photograph. It's one of Photoshop's most powerful tools. A directing layer can support many separate drawing commands. You can also use a _vector graphic_ (vector drawing, as Adobe calls it) in this same layer. To make a directing layer, follow these steps: 1. **Go to the Layers window and select the Layer Control icon in the Layers panel, as shown on the left in Figure** **3-3** **.** A number of options appear in the Layers panel, as shown in the figure. 2. **Click the New Layer icon at the top of the Layers panel.** 3. **In the dialog box, named New Layer, enter the name of the new layer in the Name text box.** 4. **Click the Add Layer Mask button to create a mask for the new layer.** 5. **Click the Layer Mask button in the Layers panel to apply the mask to the new layer.** The mask is a graphic that shows which pixels are included in the new layer and which are not. If you want to edit the image behind the new layer, right-click (Control-click) the layer and choose the Select Layer Mask command. Then make your changes to the mask. He also criticised the EU's stance on migration, saying: 'Migration causes more trouble than it solves.' Addressing the Hungarian Parliament on Tuesday, Orbán said that the EU 'fails to find a solution to migration' and that he was 'happy when an opportunity to punch the EU in the jaw presents itself.' Mr. Orbán also added that the EU was 'not a 'superior' project and is not a political project' as he criticised the EU's policies in the Balkans. 'In the Balkans, the EU doesn't know how to turn good neighbours into enemies or good enemies into friends,' he said, according to Bloomberg. Hungary is in a stand-off with the EU over the country's new laws, which were passed by the Hungarian parliament last month. The new laws, seen by many in the EU as overly discriminatory, include a requirement for asylum seekers to prove their identity at the country's borders and lead to mandatory confiscation of phones and the detention of migrants without a trial. According to an opinion poll conducted in April, 64 percent of Hungarians did not want any migrants to be allowed into the country.
