Our main goal is to offer the best and most fun RPG experience to the players by providing a highly interactive game where the first-person perspective allows players to feel each and every moment of the game. Furthermore, the game will be free from gimmicks. It will have a refreshing and smooth play style that is suited for players of all ages and skill levels. WE ARE GROZIER 1. About Us Grozier Entertainment is currently in development of an exciting fantasy action RPG game and is looking for talented people to join the team. The main focus of the game is the concept of the story and world as it is divided into chapters. The story is being told by the fragments that the characters provide. Through our main protagonist, who is a young man named Tarnished, the main storyline progresses. A traveler, separated from his companions, he then guides Tarnished, in order to pass through the Lands Between and meet up with him again in the end. 2. Our Development Process The game is composed of eight chapters, in which the player encounters different enemies and challenges, all while exploring and traveling. The eight chapters together form the main story. They start as a boring journey, but gradually become more complex as the player progresses further. The game will release in Japanese first and then global. 3. Our Goals Our goal is to provide an enjoyable game with an extensive story. We want to create a game that challenges the players, regardless of their skill level. At the same time, we want to create an RPG that offers a polished experience and creates a rich storyline. 4. Our Development Team Our development team consists of the main writer, a producer, two gameplay designers, two sound designers, and two character designers. "Derived from the Early game, action role-playing game designed around the same concept as the KING, Knights of New Orleans, and ACES." 5. What we are looking for Our games are currently comprised of a cast of characters, which we have heard is the next step for new RPGs. We are looking for skilled and passionate people to join our team to create something new and intriguing. In order to join the team, we are looking for top-notch development artists, programmers, writers, level designers, designers, etc. 6. What will it take to join the team The application process
